

# UPLOADING TO LPI EXPRESS™

*for Publisher 2013 & 2016*

The use of Publisher 2013 and 2016 requires you to make a PDF document, which you will then send to LPI Express™ from Acrobat Reader.

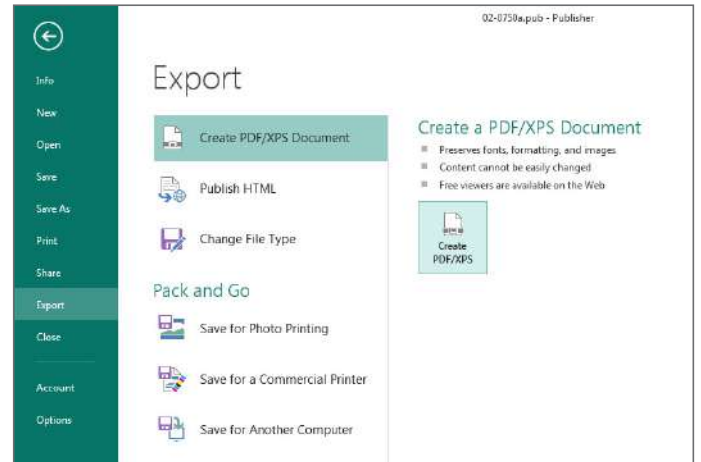

# CREATING THE PDF FILE

- 1 Open the **Publisher File** you want to send to LPi for printing.
- 2 Under the **File** menu, select **Export > Create PDF/XPS Document**, and **Create PDF/XPS**. (*IMAGE 1*)
- 3 In the **Publish as PDF or XPS** dialog box:
  - Select the location where you want to save your PDF.
  - Name your file if you haven't done so already.
  - Verify that you are saving file as a PDF.
  - Click the **Options** button and change the **Publish Options to Commercial Press**. Click **OK**.
  - Check **Open File after Publishing**.
  - Proceed to create the PDF by clicking the **Publish** button. (*IMAGE 2*)

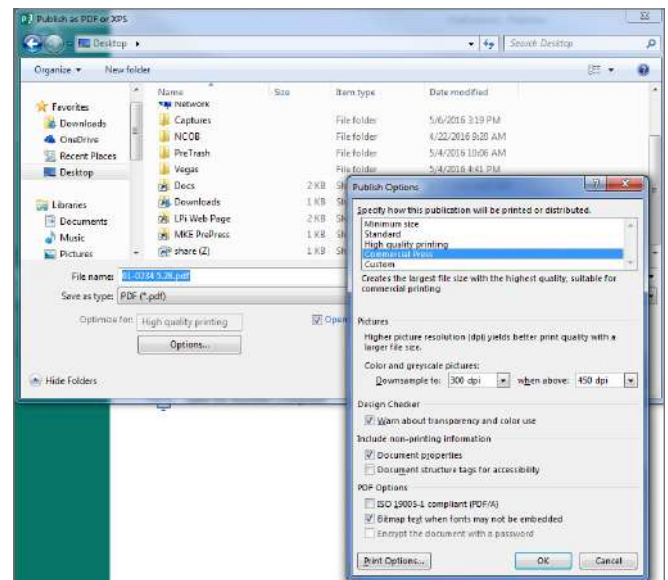

## Please Note:

A message box may appear indicating **Design Checker has found potential problems that may affect the quality of your printed publication**. Click **Fix**. A list of concerns regarding the document will be generated. Check over the list and make any necessary changes to your file. Click the **Publish** button to create a PDF.

- 4 **Preview your PDF file**. If adjustments are needed, go back to your Publisher file, make any necessary changes and create a new PDF file.
